## USER GUIDE

**IOS: VERSION 1.1.5 – APR 02, 2020**

---

### INTRODUCTION

SQUINT™ (Social See Something, Say Something) is a browser plugin and mobile app that enables rapid social media situational awareness for state and local officials through crowd-sourced reporting. When you click on the SQUINT owl icon in your browser or submit a screenshot using the mobile app, the information is analyzed, and a clear and concise report is provided to your organization's point of contact for action.

SQUINT is supported on the latest versions of **iPhones** and **Android smartphones**. This user guide is for the **iOS App**.

### INSTALLATION

#### DOWNLOAD SQUINT

1. On your mobile device, open up the Apple App Store
2. Search for **MITRE SQUINT**; it should be the only listing
